

Catch the Wind

By ANNE JOHNSON

Beaver's Pond Press. Hardcover. Book Condition: New. Shawn McCann (illustrator). Hardcover. 40 pages. Dimensions: 8.6in. x 8.6in. x 0.3in. Wind farms are impacting our environment in an extraordinarily positive way. They produce clean, renewable energy that helps maintain air quality, preserves natural gas and reduces our dependency on traditional energy sources. Catch the Wind takes readers on a journey that will teach them about wind energy and the importance of making environmentally responsible choices. It was developed with input from educators and experts from within the wind industry. Children can follow Nels, an inquisitive boy, as he visits a wind farm with his father to discover the power of the wind. Diagrams of wind turbines and their components as well as key terms, defined in a glossary, make up the educational content of Catch the Wind. While exploring topics such as renewable energy, the history of wind power, and the steps to building a wind farm, Catch the Wind also raises awareness of wind power as a viable source of clean, renewable energy. This book is a nonprofit effort courtesy of Mortenson Construction. Proceeds will be donated to nonprofit entities promoting the development and use of renewable energies. Recognition Catch the...
