COMPUTER GRAPHICS WITH MULTIMEDIA

Alpha Science International Ltd. Hardback. Book Condition: new. BRAND NEW, Computer Graphics with Multimedia, A. Rajaraman, One of the major requisites in engineering system development is the role of graphics in presentation, communication and interaction with various groups involved in execution of the system from concept to maintenance. For engineers, who deal with computer integrated problem solving approaches, understanding graphics need a book that serves to bridge the gap of computer aspects and engineering requirements. This volume aims to fill this need. Topics discussed include: types of graphics and their evolution; environmental covering input, output and interactive devices; later generation and manipulation of graphics from one-, two- and three-dimensional; viewing, projection and pre- and post processing of graphical information, standards and graphic software; visualization, animation and virtual reality aspects; image and picture processing; and numerous examples at the end of each chapter.
