Excerpt: .spring was not the product of Colter s imagination but was located on the South Fork of the Stinking Water just above the junction with the Figure 15.--Cedar Mountain oil seep (loc. C) and adjacent thermal localities near forks of the Shoshone River, reconstructed from data by Comstock (1875), Fisher (1906), and J. K. Rollinson (in Harris. 1952, p. 170). Indicated are: A, sulfur spring described by Comstock; B, extinct sulfur and iron spring described by Comstock; C, Colter s great tar spring described by Rollinson; D, hot-spring deposit mapped by Fisher; and B, l)e Maris sulfur springs at mouth of Shoshone Canyon. Heavy dashed lines indicate original stream courses prior to flooding by reservoir water. Base from U.S. Geological Survey Cody quadrangle, 1949, and Devils Tooth quadrangle, 1957. Xorth Fork and at the bottom of Cedar Mountain. The entire area has been at the bottom of...
