

The floods of the spring of 1903, in the Mississippi watershed

By Harry Crawford Frankenfield

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 36 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1904 edition. Excerpt: . . . rise at all points in the La Crosse district on the morning of May 27, and the danger-line stage of 12 feet was forecast at La Crosse. By May 31 the crest of the rise had been reached at Red Wing, the head of the district, and continued during June 1. As the stage was only 10. 3 feet, no damage occurred, the danger line being at 14 feet. At Reeds Landing, 30 miles below Red Wing, the highest stage, 9. 7 feet, occurred on the same dates, with no resulting damage. On June 1 the crest stage of 11. 9 feet was reached at La Crosse and maintained through June 2, after which time the water fell gradually until the end of the month. Owing to the low-lying lands in this vicinity, and to the fact that buildings and cultivated fields have approached...
