Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The present capability and future effectiveness of America s network of emergency telecommunications services are among the homeland security issues under review by Congress and other entities. Emergency calls (911) on both wireline (landline) and wireless networks are considered by many to be part of this network. The 9/11 Commission recommended that 911 call centers be included in planning for emergency responses. As technologies that can support 911 improve, many are seeing the possibility of integrating 911 into a wider safety net of emergency communications and alerts. Without robust support and back-up, 911 systems can be overwhelmed or rendered useless, as occurred in many locations after Hurricane Katrina struck Gulf Coast communities on August 29, 2005. One of the intents of Congress in passing the Wireless Communications and Public Safety Act of 1999 (P.L. 106-81), and of the Federal Communications Commission (FCC) in implementing the act, is to make 911 technology universally available throughout the United States. A 2002 report, known as the Hatfield Report, recognized the need to upgrade 911 infrastructure nationwide, discussed some of the difficulties...
