

Photovoltaic Manufacturing Technology Program

By -

Bibliogov, United States, 2012. Paperback. Book Condition: New. 236 x 180 mm. Language: English . Brand New Book ***** Print on Demand *****.The work performed in this contract was focused on two areas: an economic analysis of present manufacturing methods and the conceptualization of advanced equipment. The economic analysis was built on our experience with tabbing and connecting thick cells. This experience was used to generate the cost analysis that clearly points to the improvements in yield and throughput to make PV manufacturing more cost effective.

Reviews

This written publication is wonderful. It really is loaded with knowledge and wisdom You will not really feel monotony at at any time of your time (that's what catalogues are for relating to if you ask me).

-- **Desmond Becker**

Absolutely essential go through publication. I am quite late in start reading this one, but better then never. You will not feel monotony at at any time of the time (that's what catalogues are for regarding if you ask me).
