Condition: Neu. 213x152x9 mm. Neuware - Master's Thesis from the year 2013 in the subject Business economics - General, grade: 1,7, VU University Amsterdam, language: English, comment: Insgesamt 84 Seiten, abstract: I believe in horses, automobiles are a passing phenomenon 1 (Kaiser Wilhelm II, 1905) More than 100 years ago when the first motorized vehicles appeared on the streets, Kaiser Wilhelm II was not able to see the potential of this invention and how it would change the world he lived in. Today we are facing the next revolution of transportation technology, electric mobility (e-mobility). In consideration of continuous scarcity of fossil resources and progressive environmental issues caused by increasing amounts of CO2 emissions in our atmosphere, a rethinking of universally accepted habits is needed. Public and private transportation account for 19% of the overall CO2 emissions in Germany and is therefore one of the largest contributors to climate change and local air pollution (Umweltbundesamt, 2011). This circumstance also shows the great political relevance of this topic as well as the need to make the whole industry more sustainable. A sustainable innovation like the electric car can help to decrease the...
