

Proceedings of the American Pharmaceutical Association at the Annual Meeting Volume 16

By American Pharmaceutical Association

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1869 Excerpt: .the odorous compounds happen to contain sulphur, is prepared by boiling litharge in a tolerably concentrated solution of caustic soda, by which a clear solution is formed containing considerable oxide of lead, apparently playing the part of an acid. Ch. N. Jan. 10, 1868. A. J. Ph. xl, 277. THALLIUM. Thallium is extracted by WShler from flue dust by the following process: The material is repeatedly extracted by boiling water, slightly acidulated with S03, and filtered; the filtrate is precipitated with HC1; the chloride formed is converted into sulphate, and the latter in aqueous solution reduced by zinc or an electric current derived from a single cell. The metal is finally fused under a layer of cyanide of potassium. Ch. N. Aug. 9, 1867. Carstanjen has obtained alloys of this metal with As, Sb, Zn, Cd, Bi, Pb, Sn, Cu, Hg, Al, Mg, Na, K, all...
