A high quality pdf as well as the typeface applied was exciting to see. It really is written in simple words and phrases rather than difficult to understand. You will not really feel monotony at any time of your time (that's what catalogs are for relating to in the event you question me).

Brand New Book ***** Print on Demand *****.This non-fiction novel helps prevent the destruction of electricity and electronics that instantly results from an upper atmospheric detonation of a nuclear weapon (EMP = High altitude Electromagnetic Pulse) by a terrorist or rogue nation. Over roughly a 500-1,000 mile ground radius, an EMP explosion burns out most computers, electronic-control systems, telecommunication and transportation devices. Humans are not killed: infra-structure remains physically intact. Scientists, military, industry and others testifying before Congress say this is an event waiting to happen - Not if, but when. The USA Dept. of Defense has EMP protected it s Navy ships, other military structures, and selected government office buildings. Yet, little EMP protection exists in the civil sector of commercial and residential infrastructures, solar farms and the electric grid. Therefore, these voids of protection provide new options in this faction for EMP protecting new component and system hardware design with cost estimates, insurance and who pays and how. For town participating folks, this non-fiction novel is written mostly in the third person. It also provides a sequel to Forstchen s, New York Times bestseller, One Second After wherein he describes a catastrophic dysfunctional life following an EMP incident. My book describes two contrasting towns 200 miles apart in Virginia, both exposed to the same EMP incident. The first town is not EMP protected. The other town is over 95 EMP protected. What an enormous survival and lifestyle difference! These two post-EMP town episodes are contrasted in each chapter, depicted in time sequence, such as the day of the...
